

Authentic Vossen Wheels

Hey guys..

As authorized agents for Vossen, we decided to start a thread with pics of customers cars on these awesome wheels.

For a review of the wheels (quality, fitment, etc) by Twinz, you can refer to the following thread:

<http://www.bmwfanatics.co.za/showthread.php?tid=39399>

Yesterday we received a set of 20" CV7 to fit BMW e92 M3.

This is the first set in the world to be mounted on the V8 M3, so we were a bit unsure of how it would look, but the customer was excited about his choice.

The colour choice is dark graphite and the setup is 20x9 front and 20x10.5 rear wrapped by Pirelli P Zero tyres, which fits the car perfectly on ACS lowering springs. No fender work required

While mounting the wheels, I also installed 20w,4-LED angel eye bulbs. These are the brightest I've come across to date, and will post pics later.

Anyway , on to wheels..

Front:

And finally, the beast it's fitted to..

Wrapped lime green e92 M3 with Racing Dynamics front bumper, Vorsteiner carbon vented hood and trunk, VRS diffuser, ACS exhaust, etc.
